FRANCHISE BUSINESS

If you are interested in establishing a franchise business of **Gastro ribarnice Brač**, contact us with confidence. We are at your disposal for any questions and detailed explanations.

Centaurus is a company involved in the distribution, retail and export of fresh and frozen fish and seafood delicacies in the **HoReCa**-segment and it has recently started its own production. We are specialized in:

RETAIL

Ho.RE.CA.

YACHT SUPPLY

Centaurus nowadays employs about 100 staff members, who are the key of success and who managed to achieve a high level of service performance through their work, expertise and commitment in the region itself as well as in the neighbouring countries. Through our purchasing station and our own production, through the fish-catch of Croatian fishermen alongside the entire Adriatic coast, it is our aim to raise the value of pristine and good Croatian products and contribute to the recognition of their unique identity – with placing the products on the tourist market sector and within the European Union.

FISH DISTRIBUTION & RETAIL

EXPORT & IMPORT

GASTRO
RIBARNICE BRAČ
GODINA S VAMA

Gastro Fish Shops Brač make up the retail chain of the Centaurus company. In our ten own fish shops in the region we offer mainly fresh fish, caught with trawls, but also with other fishing gear, as well as freshly bred Adriatic fish. We also offer a wide range of frozen, dried, marinated and salted products.

In our central office at Poljud there is the Gastro department with a wide range of ready meals, prepared in an innovative way by combining traditional, local recipes as well as recipes from all over the world - with a pinch of modern touch, so that the dishes may reach a wide audience.

The opening of the sales outlet "Gastro Fisch Brač" in Wien gave our retail segment a new, international dimension.

Our main aim is, in all activities, at any time, to recognise the needs of the buyers and – through raising our own product quality – to contribute to a better trading quality of our partners: fishermen and suppliers as well as inland and foreign buyers.

amare
Ljubav iz mora

In the newly developed brand Amare "the sea love" was embedded. It unites the hand cleaned meat of Adriatic shrimps – which are the synonym of quality and an inevitable meal in restaurants and households – as well as marinated shrimps, marinated anchovies and salted anchovies.

A novelty are the first hamburgers made of Adriatic shrimps and scampi which achieved a great success on the market. On the wings of this success we managed to develop a new idea of an Adriatic fish hamburger, made actually of four whitefish sorts, and also to develop fish stews of the same nutrition elements.

In 2019 we opened the first retail which is actually a fusion of our production, of delicious fish products and of the local producers from the OPG (family farms).

Amare Shop

At the same premise a customer may buy the finest fish products along with domestic olive oil and wine, handmade pasta, natural juices, honey and many other products which represent a special assortment for real gourmands all in one place.
